To Whom It May Concern:

I have had the pleasure of working with Kids Adventures for the last year. They are providing before and after school care for our students. The program is affordable, well supervised and staffed and meets both the social and academic needs of our students. Our parents find the program flexible and meets their need for child care.

We have always struggled to have an after school program in our school because we could not get enough families to commit to regular attendance. Kids Adventures was willing to start the program with a minimal amount of students. They were very flexible and accommodating in working with our community. They worked with us at registration as well as parent nights to build their enrollment.

The program has been well staffed with delightful leaders. The coordinator for our site has made sure that the staff is well trained. At the beginning, the coordinator was often here to ensure that the program was running smoothly.

I would highly recommend Kids Adventures to meet your before and after school needs for your students. They are reliable, competent and efficient. Our parents and students are very pleased with the service they are providing for us.

If you have any questions, please feel free to call me at 303-982-1640.

Thank you,
