To Whom It May Concern:

I would like to recommend the Kids' Adventures Before and After School Program. This is the third year that they have provided our day care services and I have been pleased. They are professional and student focused. Requests are met with immediate action and problems are approached from a problem solving perspective.

A steady increase in the amount of planned activities has occurred throughout this year. Students are actively engaged in a variety of activities designed to interest all age levels. When a problem occurs, it is dealt with in a calm, caring manner. The types of activities and the quality of the staff have pleased parents as well. Most days the students are outside under close supervision getting well-needed exercise and learning to cooperate.

I feel that the Kids' Adventures staff and our professional staff work well as a team. Our common goal is to make Vivian Elementary the safest, most exciting yet challenging place possible. The Kids' Adventures staff has done their part to help us realize our goal.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Michelle Stansbury".
